8. Each quarter, SIO Department recognizes students who excel in their teaching services and provide a valuable contribution to teaching in SIO Department by conferring the "Teaching Excellence Awards". Would you recommend this Teaching Assistant/Tutor for the SIO Department Teaching Excellence Award? If yes, please explain why he/she deserves the award.

- She was able to explain the material very well, ran review sessions before each test, was available by email, and was even able to give a brief lecture on the endocrine system that was a more clear and concise lecture than many of the actual professors I have had. She went above what is necessary for a TA and I think it was very beneficial for the class.

- Yes - Lauren is a great teacher! She knows the material very well and explains it in a very approachable manner. She is always available during office hours and takes the time to make sure we understand the material.

- YES. Lauren worked tirelessly to make detailed review sheets and answer everyone's questions. Basically, if you did the review sheet thoroughly, you would ace the exam, and that was without her even having seen the exam before making it. The professor was pretty spacey on a lot of the subject matter, and Lauren took it upon herself ("above and beyond the call of duty") to

make sure the students had the information straight for the exams. She was presented with a tough job, but she definitely excelled as a Teaching Assistant.

9. Do you have any other comments to add to your evaluation?
Please provide any additional constructive comments

- Lauren, why do you not have a photo? Is it that bad? Haha...

- There needs to be weekly sections for this class
